**2YC<sub>3</sub> Eastern Regional Advisory Board Meeting**  
**115th Conference**  
**Anne Arundel Community College**  
**Arnold, Maryland**  
**Friday September 17, 1991**

**Attendance**

Twenty five names were listed on the attendance sheet. Twenty attendees were 2YC<sub>3</sub> members. Five were Regional Advisory Board members.

**Opening**

The meeting was opened at 9:30 a.m. by the Chair, Margot K. Schumm.

**Introductions**

The COCTYC officers and past chairs present were introduced. All others then introduced themselves.

**Minutes**

A. Advisory Board, Approval

The minutes of the 114th meeting, held at DeKalb College, North Campus, Dunwoody Georgia were approved by voice vote.

B. COCTYC, Information

1. Executive Committee Meeting in New York — A task force established by the Committee on Special Status submitted a report with the recommendation that educational activities of professors be considered a significant criteria for evaluation of tenure and promotion. This recommendation will be sent to every chemistry department in the country. For too long, research has been the major consideration for tenure and promotion in many four year colleges and universities. The ACS task force recommendation should go a long way toward placing activities related to teaching on an equal level of importance. The complete report of this task force will appear in the first 2YC<sub>3</sub> newsletter in 1992.
2. Division of Chemical Education programming activities — Elliott Greenberg said at the meeting prior to the Executive Committee Meeting in New York, ACS National suggested the division of chemical education should have more programming. It was pointed out that, in the past, the division has not included 2YC<sub>3</sub> conferences in its list of programming. ACS National would have a more accurate picture of division programming if these conferences were included in the division report. The four 1991 2YC<sub>3</sub> newsletters and a recommendation to this effect has been sent to Bob Silberman, Program Chair, ACS Division of Chemical Education.

**Reports**

1. Margot Schumm presented a report on the 114th Conference at Dunwoody Georgia. The meeting was very successful, with some excellent symposia. There were over one hundred people in attendance.
2. Duane Sell presented the Treasurer/College Sponsor's report. Duane referred the members to the Statement of Income and Expenses, and the list of College Sponsors. The committee is in good shape financially, but there is always room for improvement. As of September 27 there are a total of 124 college sponsors. This reflects an increase of 27 sponsors since April 12, 1991. Members are encouraged to request their administrators send the \$25.00 sponsor's fee to Duane so there institutions can be included in the published list of college sponsors. If there is a community college in your area not on the list, please make a photocopy of the sponsor's application from the newsletter and send it to the institution with a request that they send in their sponsors fee. Regional Chairs are also encouraged to obtain a list of colleges in your region from Dick Jones, eliminate the current sponsors, and send out a request for

sponsorship to these institutions with an application enclosed. 2YC<sub>3</sub> has a contest in progress to see who can bring in the most new college sponsors in the coming year. To enter the contest, participants must submit a minimum of 5 new sponsors. The winner will receive an award of \$100.00. December 1, 1991 is the deadline for the contest.

3. Dick Jones, Membership Chair, said 2YC<sub>3</sub> has a total of 600 paid members. One thousand two hundred (1200) questionnaires have been mailed to college presidents to collect information needed for various purposes by 2YC<sub>3</sub>, and to educate college presidents and upper level administration regarding 2YC<sub>3</sub> activities. Another batch will be mailed in October or November. Each packet includes a membership and college sponsor's application. A summary of data collected will be published in an upcoming newsletter. Membership is also continuing a contest. Contestants must submit a minimum of 25 new members. The winner will receive \$100.00. The deadline is December 1, 1991.
4. Patricia McCoy-Brown, Industrial Sponsors Chair said, after double checking the list, there are a total of 19 active industrial sponsors. Conference directors are encouraged to recruit additional sponsors. The exhibits at this conference were outstanding and well attended. Falcon Software has purchased an advertisement in the 1992 newsletters and more ads are in the process of being sold. This is the first year 2YC<sub>3</sub> has sold advertising in the newsletter. Two thousand (2000) copies are mailed throughout the United States, and there are four issues. Encourage your chemical, equipment, and supplies companies, and publishers to advertise in the newsletter. Advertising space is limited, and this space is sold on a first-come-first-serve basis. Actively recruit your local representatives to participate as sponsors and advertisers. Sponsors at this conference provided a complimentary luncheon just prior to the National Chemistry Week presentation.
5. Ed Heath, Chair elect, said the meetings calendar has been completed through May of 1997. The Site Selection Committee is in the process of filling in the blank spots with conference sites. Colleges interested in sponsoring future meetings should contact a Site Selection Committee Member as soon as possible. It is much easier to plan your conference if you give yourself two or three years lead time. The Site Selection Committee Members are:

#### **NSF Update**

It is becoming more and more evident that the National Science Foundation and people all over are beginning to realize how important the community college is in feeding the pipeline supplying chemists for our country. We are in a position now to really make an impact and to take our rightful place in the community of chemical education. If you are interested in being an NSF reviewer, please send your name and address to Margot Schumm. It is

important that we participate in this process and educate other reviewers regarding the special needs of community college science and math departments.

Several years ago Duane Sell and John Clevenger came up with an idea to ask for moneys supporting a summer workshop on instrumentation. The grant was not funded in its original form, however, Dick Jones joined the group, the proposal was rewritten, submitted again, and accepted by the National Science Foundation. More information regarding the workshop will appear in an upcoming 2YC<sub>3</sub> newsletter. These individuals along with Kathy Weisman and others who assisted are to be congratulated and thanked by all 2YC<sub>3</sub> members. Terri Nally recommended the workshop be advertised in CHEMUNITY NEWS in addition to the newsletter.

### **Minority Participation in 2YC<sub>3</sub>**

Minority Participation in leadership roles in the Division of Chemical Education and in 2YC<sub>3</sub> needs to improve. Warren Grant, a member of the Chemistry Department at Montgomery College, Rockville Campus, and a minority member of 2YC<sub>3</sub>, suggested a minority college should sponsor a 2YC<sub>3</sub> conference on their campus. The extended conference calendar should provide the time necessary to plan one or more conferences on minority campuses. 2YC<sub>3</sub> requests professors at minority campuses to respond to this suggestion. They may contact their regional Site Selection committee member or Ed Heath, Chair elect, 1992.

In the last few years the Journal of Chemical Education and the public in general are beginning to encounter problems that community colleges have been dealing with for years. Some time ago there was an editorial in the journal that had to do with accommodating the needs of returning older students – students that are not the traditional four year college and university student. On "All Things Considered", September 17, 1991, there was a piece on the controversial program at Berkeley to have the university report the ethnic diversity and background of California. We in the community college represent the ethnic diversity of our community. We have experience in both areas we can share with the four year schools.

### **Publicity, Public Relations and C&EN**

Margot Schumm recently received a letter from the editor of C&EN listing about seventy items on education that were published in the 1990 C&EN. Most of the items were announcements of successful grant applications, etc., but there was very little on the "nuts and bolts" of chemical education, the kinds of exciting things happening in the education community, the networking we are beginning to do, and the continuum developing beginning at the elementary schools and going to the universities. Several suggestions for improving the situation were listed in volume four of the newsletter. It is our responsibility to assist in remedying the situation. We must barrage Ward Worthy, News Bureau Head, C&EN, with articles that describe the outstanding contributions of individuals and groups to the world of chemical education and chemical education to the world.

### **Introductions of Additional Arrivals**

Late arrivals introduced themselves and were asked to sign the attendance list.

### **Announcements and New Business**

There were no announcements or new business.

### **Adjournment**

The meeting was adjourned at 10:37 a.m.

Respectfully Submitted,

Ed Heath, Chair elect 1991

**COCTYC Meeting  
115th Conference  
Anne Arundel Community College  
Arnold, Maryland  
Saturday, September 28, 1991**

**Members Present**

Pat McCoy-Brown, Elliott Greenberg, Ed Heath, Dick Jones, David Kline, Duane Sell, Margot Schumm

**Call to Order**

Margo Schumm, Chair, called the meeting to order at 3:45 p.m.

**Approval of Minutes of COCTYC Meeting, 114th Conference**

The minutes of the COCTYC Meeting held at Dekalb College, North Campus, Dunwoody, Georgia were approved as written.

**Summary Report of the 115th Conference**

Sridharan Iyengar said there were no problems, and the organizers felt the conference was very successful. Debbie Reeder said she would send names and addresses to Margot for appropriate letters of thanks. Sri suggested increased participation by Student Affiliates would be an asset to future conferences. Debbie agreed to assist Dick with attendance information, and Sri said he would forward information to be included in a future newsletter to Ed Heath. Debbie also said the letter from the president of the college indicating the administration would support the conference helped in facilitating work in various areas such as food service, print shop, etc. Public relations efforts aimed at high school chemistry teachers and the general public resulted in attendance by several atypical members of the professional community, including some representatives from the National Institutes of Health. Elijah Pugh said initial response from industrial sponsors was limited, but follow-up communication yielded much better results. All exhibitors seemed very happy with booth attendance. It was helpful for exhibitors to send exhibit hardware ahead, prior to the conference. Sri was happy with overall attendance, but was a little disappointed with area community college attendance. It was the general consensus that conference participants appreciated having time to visit the exhibits and each other; the way events were spread out added to the success of the conference. On behalf of COCTYC Margot complimented the organizers for an outstanding conference, and encouraged them to continue their active support of 2YC<sub>3</sub>.

**Personnel Matters**

1. **Chair elect Nominations, 1993:** Nominations for Chair elect were postponed until the Cape Fear meeting.
- \* 2. **Editor:** It was decided that we will have an editor, the duties of which will be determined at the summer workshop. The editorship will begin in 1993.
- \* 3. **Secretary:** The secretaries responsibilities will be fulfilled by the editor and Chair elect. An early draft of the minutes should be sent to the chair to assist in the preparation of the agenda for the coming meeting. There is no need for a secretary as such.
4. **Regional Committees:** The Chair elect was directed to bring an attendance summary to the Cape Fear meeting to be used in the re-appointment of advisors. A letter was sent to regional chairs requesting names to be considered for new appointments. A deadline for regional chairs' suggestions will be set prior to the Cape Fear meeting, perhaps November 1. **ACTION ITEM:** A motion was made and seconded that Past Chairs be considered ex officio members of the COCTYC with emeritus status, paid lifetime membership, and privileges to attend all COCTYC meetings, and will receive future copies of the agenda and minutes of all meetings. The motion passed unanimously.

## Reports

1. Elliott Greenberg reported on the status of the College Chemistry Canada meeting. A program chair, etc., needs to be appointed for the meeting as soon as possible. Harry Hajian and Shahid Jalil will be contacted regarding this matter in the immediate future.
2. Ed Heath reported on future meeting sites. It was decided to move the western regional meeting, Mar. 30-31, 1995, to a different location, such as Tucson, Santa Fe, or Albuquerque, but not change the date. Bill Wasserman will be asked to assist in this matter. The chair will fly to the national meeting in Anaheim, Saturday, Mar. 31. The first fall meetings from 1993 to 1996 will be moved to the last week in September or the first week in October. Other appropriate changes will be made, and sent to Site Selection Committee members as soon as possible.
3. Dick Jones reported on membership, questionnaire, and mailing list revision. He is in the process of revising the mailing lists and plans to have this task finished by the middle of November. Work will continue on a more permanent data base solution to mailing list problems. The first questionnaire response was moderately successful. A second request will be sent after this meeting.
4. Pat McCoy-Brown reported on industrial sponsors. Information on procedures, schedules, dates, etc. was distributed to COCTYC members. Invitations to sponsors are sent two months prior to conferences, with a copy of the newsletter and an exhibit request form. The importance of locating exhibits close to the refreshment area, the success of holding a raffle supported by the exhibitors, and the local industrial sponsor coordinator and program chair allotting enough time for members to visit the exhibit area were emphasized. Other details on the handout were discussed by the committee. **SPECIAL REQUEST:** Pat requested advisory board members and members of the COCTYC to send her a list of potential sponsors to facilitate growth of the industrial sponsors list. In the letter sent to the sponsors, information regarding newsletter advertisements is also included. Thus far, Falcon Software has responded to the call for advertisers. The limited space for advertisers will be reserved on a first come first serve basis.
5. Margot Schumm reported on the DivCHED Executive Committee Meeting, Public Relations, Contributions, Totem Pole and Address Labels for COCTYC. One of the most significant topics at the DivCHED meeting was the "Guidelines for Tenure and Promotion" which will appear in the first 1992 2YC<sub>3</sub> newsletter. The Task Force on Introductory Chemistry plans to present their recommendations at the Spring ACS Meeting. In the public relations area Margot asked the DivCHED committee to issue a press release about the academic criteria for teaching and activities that have to do with teaching rather than "wet" chemistry; they accepted the recommendation and voted to act on it; thus far, no information has been noticed in C&EN. She also made an informal recommendation that the committee elect a public relations officer the duties of which would be to publicize activities of the division. The division was commended for their contribution to "Campaign for Chemistry" in the name of all its members. It was suggested that 2YC<sub>3</sub> have an address and telephone list similar to the division's "Totem Pole" which should include the past 2YC<sub>3</sub> chairs, the main contact people in the division, and the staff in the office of college chemistry. Dick said he would request necessary information for such a list when he writes the emeritus members, incorporate these names with Margot's list, and send a copy to the COCTYC members.
6. Duane Sell reported on college sponsors and the budget. As of this meeting we have 124 college sponsors. Many of our new college sponsors are a result of Dick's mailing. Invoices for the 1992 year will be mailed in the near future, and colleges are encouraged to renew their sponsorship. Duane reviewed the itemized budget proposal, mentioned the income from advertisers in the news letter, and the fact that the summer retreat will be included in the revised budget. Pat is going to take care of arrangements for the Kentucky retreat. **ACTION ITEM:** A motion was made

and seconded to provide \$250 to conference organizers one calendar year prior to their conference to act as seed money, not to be used as stipends, speakers' fees, or other restricted expenditures, and to be returned at the end of the conference from conference income. All remaining income may be kept by the departments of the conference organizers. The motion passed with one abstention. Travel stipends were discussed; no action was taken.

### **COCTYC Calendar**

Activity calendars were requested from each member to use in the preparation of an agenda for the summer retreat, tentatively scheduled for May 29-31, 1992. Committee members were asked to send any revisions to Margot, in order to collate and distribute the calendars at the retreat. The agenda will be discussed at a future COCTYC meeting. Some items include revision of the packet sent to conference coordinators, duties of the newsletter editor, and realignment of the officers' responsibilities.

### **Old Business**

The in-depth study, the summer retreat, and the NSF grant have been covered previously. No additional old business was discussed.

### **New Business**

Elliott was directed to order plaques for past chairs up to Dick Gaglione. Future recognition of past chairs will be discussed at another meeting.

### **Adjournment**

The meeting was adjourned at 11:45 p.m.

Respectfully Submitted,

2YC3:QUESRESL

Who Are We?

Richard Jones, 2YC3 Membership Chairperson

Last May a questionnaire was mailed to approximately 1200 two-year colleges. The purpose of the questionnaire was two-fold: First, we wanted to bring 2YC3 to the attention of the top administrators of two-year colleges. Second, we wanted to gather the information asked on the forms.

Because the primary purpose of the mailing was to inform the top administrators of two-year colleges about 2YC3, the questionnaire was addressed to the President of the college. Included with the questionnaire were informational brochures, individual membership forms and college membership forms. The idea was for the President to pass the questionnaire down the hierarchy to the chemistry department. Despite this inefficient means of getting the questionnaire to the chemistry department, we received 226 questionnaires back. (In case you're wondering, my own school did not respond!!!)

A second mailing of the questionnaire is being sent out to those schools that did not reply the first time. Here are some of the results from the first set of responses:
