

Chem 2061 Homework assignment 1

Fall 2005

This assignment is due to my email by class time Friday, August 26. Don't save it until the last minute, as computers are inherently fussy.

1. Using your school-assigned MetNet email account, address an email to andrew.aspaas@anokaramsey.edu
2. Make the subject exactly "Lastname Chem 2061 Homework 1" with your own last name and with the correct spelling and spaces (the instructor sorts these messages by subject so make sure it's exactly as above or it may not be received)
3. Supply the following in the email.
 - a. Your full name
 - b. High school attended and graduation date
 - c. College year (Freshman, sophomore, N/A, etc.)
 - d. A 4-8 digit number to identify you by in online grade postings. Do not make it your phone number, birthday, SS#, or anything which can be easily tracked back to you. The number cannot start with 0. If you do not wish to have your grades posted online, indicate that here and do not supply a number.
 - e. A list of all math, physical science, and chemistry courses completed in high school and college, with course name or number, year, and location for each
 - f. Indicate whether you are taking this course as a prerequisite for another, and if so, which.
 - g. What do you hope to attain from this course?
 - h. Any questions or concerns you have for this course
 - i. The interesting thing about yourself that you mentioned in class.
4. Send the email well before the due time.
