

Dear Teacher,

Thank you for allowing my students to visit your classroom to share some of their knowledge of chemistry. My students are performing the classroom visits as part of their lecture/laboratory grade in Principles of Chemistry II. The classroom visits are intended to satisfy the oral component of the course. Most of these students have plans to major in health or science related fields. Please do not hesitate to ask them questions about their background, their future plans, or any of the activities they have brought to your classroom.

The classroom visitation project began over five years ago with three annual grants from the Anoka-Ramsey Community College Foundation and is being continued from the chemistry department budget, due to its popularity with past host teachers, elementary students, and chemistry students. In order to provide the students and myself some feedback, we would appreciate it if you could take a few moments to evaluate the classroom visits and place your evaluation in the provided envelope. You may choose to give an anonymous evaluation, though the large majority of students would like to have an honest evaluation of their presentation. If you or any of your students would like to send any notes or comments directly to me, my address is:

Chemistry Department
Anoka-Ramsey Community College
11200 Mississippi Blvd NW
Coon Rapids, MN 55433-3470

or E-mail: christopher.lutz@anokaramsey.edu
Phone: 763-433-1494

Thanks for your cooperation!

Sincerely,
Christopher M. Lutz
Chemistry Teaching Professor

Place a number in the blank that indicates how strongly you agree or disagree with the statement.

1= strongly disagree 2 = disagree 3 = neutral 4 = agree 5 = strongly agree

- _____ 1. I welcomed the opportunity to have the chemistry students visit my classroom.
- _____ 2. The chemistry students dressed appropriately for their visit.
- _____ 3. The chemistry students gave a good presentation.
- _____ 4. The chemistry students explained their demonstrations at an age-appropriate level for my students.
- _____ 5. The chemistry students related their demonstrations to events outside the classroom (everyday occurrences, household items, history, etc.)
- _____ 6. The chemistry students discussed or demonstrated proper safety procedures (ex: wore safety goggles, provided warnings, etc.).
- _____ 7. The chemistry students appeared to have a good time.
- _____ 8. I (the classroom teacher) enjoyed the classroom visit.
- _____ 9. My students enjoyed the classroom visit.
- _____ 10. Overall, the experience was beneficial for my class.
- _____ 11. ARCC should continue these classroom visits in the future.
- _____ 12. I (the classroom teacher) would welcome the opportunity to have chemistry students visit my class again next year, if available.

Additional comments:

Place the evaluation in the provided envelope and give to the student to return to Professor Lutz or mail it to the address provided. Thank you.
