

National Hand Washing Awareness Week

December 7-13, 2008

Spread the word, not the germs!

One of the simplest and most effective ways to prevent disease is proper hand washing. National Hand Washing Awareness Week reminds everyone of the importance of hand washing, and to encourage proper hand washing procedures.

Everyone can participate in National Hand Washing Week simply by following the guidelines below:

1. Wash before eating and any other time hands are dirty.
2. Cough into elbow instead of hands.
3. Sneeze into elbow instead of hands.
4. Do not touch eyes, nose or mouth.
5. Always wash hands after using the bathroom.

NOW AVAILABLE-Purell Hand Sanitizer

- Kills 99.99% of most common germs that may cause illness in as little as 15 seconds.
